

Remarks

The Amendments to the Specification provided above are corrections to mistakenly cited and incorporated issued U.S. Patents. Inadvertently, patents unrelated to the technology of the present application were cited in the Specification as filed and incorporated by reference. The current Preliminary Amendment removes citation and incorporation by reference of the unrelated U.S. Patents. No new information is added to the Specification through these Amendment and entry of the Preliminary Amendment is respectfully requested.

If the Examiner has any questions regarding this Preliminary Amendment, the Examiner is invited to contact Applicant's representative, Alan Stewart, at 612.371.5376.

Respectfully submitted,
